# Let Today Be Today

Let today be today

Just like you can't change the seasons  
from growing cold  
the wind will go where the wind will blow  
and how the sun leaves and returns as she pleases  
the moon always misses

The two so intimately connected  
yet they keep their distance  
equilibrium is protected

Let it be  
feelings, they come & go  
but today is today  
mountains will move, in their time  
the night is long, but morning's on her way  
all will be well  
today is today

Everything falls down in a landslide  
matter & time  
wildfires burn summer's baggage  
ashes to dirt to rebirth  
babies are born  
drought & downpour  
parents pass  
nothing lasts  
children have children  
the circle of life

feels more like a whirlpool  
all will be well  
today is today

So encapsulated by the physical  
how strange to have a body in search of the spiritual  
somewhere in the atmosphere  
something in the ocean  
somehow in the purple mountains  
an eclipse between body & spirit  
    head & heart  
    senses & intuit  
    together when apart  
    mourning & dancing  
    celebration & grieving  
    the Sun & moon  
    me & you

I can be certain of uncertainty

All will be well  
Let life be life  
Let death be death  
Let today be today
